EIGHTEEN AUTO TRUCKS RUNNING TO AURORA

According to the Yerington Times, the Copper Belt railroad is now doing the greatest business in its history. Five new box cars have just been received and placed in commission. The increased traffic on the road is mainly to and from the stations of Yerington and Hudson. Everything in the way of freight and passenger traffic for Aurora, Bodie and Bridgeport is now going by way of Hudson. There are some eighteen auto trucks now running out of Hudson daily, besides a large number of freight teams, and the mail and express now goes this way.

FULLER'S EARTH.
A report on fuller's earth, by Jefferson Middleton of the United States geological survey, has been published as an advance chapter from Mineral Resources for 1912, and copies will be sent to interested persons free, on application to the director of the survey at Washington, D. C. The value of the fuller's earth mined in 1912 in the United States was \$305,522, and Florida was the principal producer.

PIKE'S PEAK NOT DIMINISHING IN ALTITUDE

REPORT OF THE GEOLOGICAL SURVEY THAT SETTLES AN OLD RUMOR.

Denver dispatches stating that recent government surveys show that Pike's Peak has sunk 35 feet in the last three years are easily explained. Somebody has simply been comparing the exact altitude of the mountain, recently determined by the United States geological survey as 14,309 feet, with old railroad or barometer figures of elevation. As a matter of fact, to have come within 40 feet of the actual elevation shows a good job of surveying for the early days when Indians were plentiful and instruments poor, for, after all, there is no royal road of determining the altitude of any point. It has to be done today just as it had 100 or 1000 years ago, by a series of sights from the ocean shore. To obtain the elevation of Pike's Peak means that surveyors had to run levels all the way from the Atlantic ocean, or the Pacific, to the top of the mountain. Thousands of sights had to be made. Of course, when the geological survey about five years ago established the exact elevation of Pike's Peak the engineers did not start at the sea level; they took the nearest point to the peak which had been previously determined by former level surveys. When the summit of the peak was reached a bronze tablet with the following inscription was cemented into the rock:

"U. S. Geological Survey, George Otis Smith, Director, Pike's Peak, Latitude 38 degrees, 50 minutes, 26 seconds, Longitude 105 degrees, 2 minutes, 37 seconds, U. S. Standard, elevation above sea level 14,309 feet, 1908."

There is but slight likelihood of the altitude of this tablet changing within the lifetime of the present generation or, for that matter, within the lifetime of the American republic, however long we may expect it to endure, unless some relic hunter removes the tablet, and in such an event he will make himself liable to a fine of \$250.

The geological survey has published an excellent engraved map known as the "Pikes Peak Special Map," which includes Colorado Springs and the adjacent country, covering an area of about 200 square miles. On this map is shown every physical detail of the country and the elevation not only of Pike's Peak but of scores of neighboring mountains ranging from 10,000 to 13,000 feet in height. Streams, lakes, roads, trails, houses, etc., are also portrayed in their exact relative positions. This fine map is printed in three colors and is sold by the United States geological survey, Washington, D. C., for the nominal sum of 20 cents.

TEMPERATURE REPORT.
Highest temperature yesterday, 50 degrees; a year ago, 43.
Lowest temperature last night, 35 degrees; a year ago, 34.

If it's of exceptional value at the price, it's sure to be advertised in the Bonanza, else the merchant would be hopelessly unprogressive.

CLASSIFIED ADS.

EUROPEAN girl wants general housework, or in restaurant kitchen. Address L. K., Bonanza. 288N512

FOR RENT—Five-room modern house furnished; two houses for sale. Sollerand, phone 1456. 288N516

PERSONAL

Comings and Goings of Local People and Others.

ATTORNEY J. H. EVANS went to Carson City on a case before the federal court.

MR. AND MRS. FENTON McAVOY, who have been in Honolulu for the last four months, returned today.

MISS GUINIVERE BERTRAND, of the postoffice force, returned today from her vacation in San Francisco.

FRED BRADSHAW, manager of the Tonopah Development company, returned this morning from Carson City.

A. H. PETT, general agent of the Tonopah & Goldfield railroad, is over from Goldfield conferring with shippers.

PAUL LOSKAMP, former purchasing agent of the Tonopah Mining company, returned to Sacramento this morning.

M. J. MURPHY, wife and children, Mrs. McLaughlin and Mrs. J. Dougherty left this morning for San Francisco, where they will reside for the winter.

R. WALLACE McNEILL left this morning for Mina to install a car-load of machinery at the Darwin Mining company's plant, thirty miles from Keeler.

MRS. H. S. COWING went to Goldfield by auto last night to meet her daughter and husband, Mr. and Mrs. G. L. Harmon and daughter, from McCook, Neb.

MRS. D. C. RYCKMAN came back from Virginia City, where she was called by the illness of her sister. The report fortunately proved to have been exaggerated and the lady is convalescent.

HANK BLOOM'S REMAINS INTERRED IN TONOPAH

With the same ostentation that marked his life the remains of Hank Bloom were consigned to the grave yesterday, with a few old friends attending the funeral. The interment draws the veil on the life of the hermit of Railroad hill and it is probable that nothing will ever be heard from the family, as there is nothing to guide the authorities or undertaker in sending notice. The name of the deceased was spelled Bloom instead of Blume, as first given.

Jumulong Mangloc is the highest point in the island of Guam, our smallest individual Pacific island possession. According to a chart published by the United States geological survey, it is 1274 feet above the sea.

WHY I SHOULD BUY AT HOME

BECAUSE my neighbors are here.

BECAUSE the community that is good enough for me to live in is good enough for me to buy in.

BECAUSE every dollar I spend at home stays at home and helps work for the welfare of the community.

BECAUSE the man that I buy from stands back of the goods.

BECAUSE the man that I buy from helps support my school, my church, my lodge and my home.

BECAUSE the man that I buy from pays his part of the city and county taxes.

BECAUSE by buying at home I improve the community, thereby advancing the price of my holdings in proportion to the amount I would save by sending away. Here I live, and here I should buy.

NEVADA'S CIVIL WAR VETERANS NUMBER 399

A copy of the National Tribune of Washington, D. C., shows that there are 399 veterans of the civil war in Nevada, who draw pensions amounting to \$84,719.67. There were 497,261 survivors of the war on the roll at the beginning of the year and 462,379 at the close. All survivors of the Mexican war are now granted a pension of \$30 per month. There are now 199 widows of the war of 1812 on the roll.

Certificates of location on sale at the Bonanza office.

Coffee

"We guarantee"—they all say that; but money back talks.

Money back when you have tested the whole package and are sure of your mind.

ARKANSAS HAS STANDING AS MINING STATE

STATE LEADS IN PRODUCTION OF ALUMINUM ORE AND OF OILSTONE MATERIAL

Arkansas is first among the states in the production of two minerals, bauxite and novaculite, the former being the ore of aluminum and the latter the source of the larger part of the oil stones produced in the United States. The principal mineral product of the state, however, is coal, the annual value of which constitutes over 50 per cent of the total. The total value of the mineral products of Arkansas in 1912 was \$5,285,726, against \$5,864,822 in 1911, according to Edward W. Parker, of the United States geological survey. The coal production was 2,100,819 short tons, valued at \$3,582,789, in 1912, against 2,106,789 tons, valued at \$3,266,849, in 1911. The coals of Arkansas are generally of high grade, particularly in the eastern part of the field, where they approach anthracite in character. The semi-anthracite of Arkansas is an excellent domestic fuel, reaching markets as far north as Kansas City. Mining conditions are exacting, however, and the cost of labor high. Moreover, competition with petroleum and natural gas and with the more cheaply mined coal from Illinois and Alabama on the east and with Colorado and New Mexico coals on the west has kept the coal mining industry of Arkansas practically at a standstill for the last ten years.

Bauxite is second among the min-

eral products of the state. In 1912 the same quantity of Arkansas bauxite produced valued at \$113,844, exclusive of alumina and of bauxite burned for lime. In 1911 the quarry products were valued at \$226,352. The clay-working industries, while not highly developed, take fourth place in the value of output. In 1912 the clay products of Arkansas, about 13 per cent of which consists of common brick, were valued at \$462,601, and the sand and gravel pits yielded \$385,425. The only metallic products of Arkansas are lead, zinc and manganese ores, and of these, zinc contributes more than \$100,000 to the total value. Other commercial products are fuller's earth, lime, mineral waters, natural gas, phosphate rock and slate. Some diamonds are found in Pike county.

AMUSEMENTS

Butler Theater.

At the Butler this evening the following interesting program of pictures will be shown: A Pathe splendor showing "Birds of Prey," an Edison educational picture, and "Rifly, the Picturesque," scenic; "Bonnie of the Hills," an Essanay; "The Lonely Heart," a Selig drama, and a Vitagraph feature entitled "Daddy's Soldier Boy." A true little soldier daddy's boy proves himself worthy of the name and shows himself a hero, while his father displays a yellow streak. As the result of his heroism in saving a little girl from death beneath the grinding wheels of an automobile, the boy is morally injured and is taken to the hospital. Tomorrow, "A Proposal from a Sculptor," being the third number of "Who Will Marry Mary," and Pathe Weekly of current events.—Adv.

DIVIDEND NOTICE

Oakland, Cal., Oct. 31, 1913.
At a directors' meeting of the West End Consolidated Mining company held this day a dividend of 5 cents a share was declared upon the capital stock of the company, payable December 2 to stockholders of record November 19, 1913.
DENNIS SHARLEY,
Secretary West End Consolidated Mining Company. N116

ASSESSMENT NOTICE.

RESCUE-ETULA MINING COMPANY. Location of principal place of business, San Francisco. Location of works, Tonopah, Nye County, Nevada.
Notice is hereby given that at a meeting of the Board of Directors, held on the 17th day of October, 1913, an assessment (No. 5) of One (1) Cent per share was levied upon the capital stock of the corporation, payable immediately in United States gold coin, to the Secretary, at the office of the company, Room 265, Russ Building, San Francisco, Cal.
Any stock upon which this assessment shall remain unpaid on the 25th day of November, 1913, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on MONDAY, the 25th day of December, 1913, to pay the delinquent assessment, together with the cost of advertising and expenses of sale.
By order of the Board of Directors, CHARLES D. OLNEY, Secretary, Office—Room 265 Russ Building, San Francisco, California. 020wa

No trouble to get anything in the world with a Bonanza want ad.

A Free Chi-Namel Demonstration

You can ask the Demonstrator to show you any Chi-Namel product you may be interested in, actually applied.

For instance—White Enamel, Porch Furniture Enamel, Gold and Aluminum Paint, Varnish Remover (the kind that softens old varnish so it can be washed off with a common scrub brush and clear water), Floor Wax, Furniture Polish, Mission Stains, Colored Varnishes for staining and varnishing with one application.

She will not merely show you the package containing these materials, but show it IN THE BRUSH, and applied before your eyes—in fact, you can take the brush and apply it yourself.

You can see the actual colors—see how easy it is to apply—how all brush marks disappear before it hardens.

This will be a demonstration worth while for any one who is responsible for the care and good appearance of the interior woodwork and furniture of a home.

By asking for a demonstration of any particular Chi-Namel product you will not place yourself under obligation to buy; this demonstration is to acquaint the public with the use and economy of Chi-Namel in the home.
